Our Clients

WAREHOUSE SAFETY

SWL Signs

ENTERING THE RACK

- To safely deposit or retrieve a pallet the forklift **MUST** approach the racking squarely and not at an angle
- **DO NOT** attempt to deposit or retrieve a pallet when the forklift is not aligned correctly
- **DO NOT** nudge a pallet to position it correctly in the rack

LOAD PLACEMENT

Incorrect placement of loads can be dangerous

Loads should be evenly distributed across the beam length

Pallets should be positioned correctly

Pallet weight should not exceed design load

Loads should be positioned evenly across the pallet

Super Market shelving system

Wire Solutions

Wire shelving brings the products in the centre of attention. Due to its flat design, the shelving provides the maximum of merchandise density, looks stylish and

Key Features

- Modern design
- Perfect solution for different retail formats
- Less metal used in shelving design

Customized Solutions

Straight and curved display units meet all merchandising requirements and stand out from the standard shelving systems. Different design options help to reach the necessary customization within the store and make the customer totally absorbed by the perfect shopping experience

Super Market shelving system

Shelving System FS

FS system stands out from the standard shelving as it suggests additional aisles space. Middle back panel together with new shelf size gives extra space which means more comfort for customers and efficient merchandising.

Key Features

- Central back panel
- Modular design
- Different size options
- Wide range of accessories
- LED backlight

Less is More

KM system

Two back-panels — 10 cm lost space

FS Shelving system

Middle Back Panel substitutes two back-panels.
Gives extra 10 cm space in the row

Middle Back Panel
5 cm reduced depth
Gives extra 20 cm space in the row
